THE CORN CROP OF THE UNITED STATES. -A correspondent of the Cincinnati Enquiser shows by the following statistics that the average increase of this crop is about five per cent. per annum. In 1840 the crop was 377,531,875 bushels; in 1850, 592,681,104; in 1860, 830,451,707, and the estimated crop for 1866 is 1,039,000,000. The different portions of the United States where this crop is

New England, New York and New Jersey, 38,948,890 bushels; Pennsylvania, Maryland, Delaware, Virgania, North Carolina and South Carolina, 128,998,249 bushels; Georgia, Florida, Alabama, Missisippi, Louisiana, Arkansas and Texas, 147,425,726 ushels; Ohio, Indiana, Illinois, Kentucky, l'ennessee, Missouri, Michigan, Wisconsin, nnesota, Iowa and Kansas, 550,627,943

From these statements it will be seen that the nation will have to depend mainly upon the valleys of the Missouri, Ohio and upper sissippi rivers; and from the States above mentioned Hilinois produces the greatcut quantity. In Ohlo the average yield per acre for the last twenty years has been thirty-three bushels, although as many as one hundred and eighty bushels have been grown on a single acre. There are many counties in the State where the average product is over forty bushels.

ANTIFFAM NATIONAL CEMETERY—"LEE'S, ROCK."—A meeting of the Trustees of the Antiotam National Cemetery was held in Baltimore last Thursday to adopt plans for laying off, fencing and ernamenting said cemetery. The only point of interest to us in this meeting was in reference to a rock in the cemetery grounds known "LEE's Rock," from the fact that Gen. R. E. LEE stood upon it for a time during the battle of Antietam, or, as we call it, Sharpsburg. At a previous meeting the Board had decreed that this rock should be taken up and removed. At the meeting on Thursday it was moved to reconsider this decree and retain the rock. The motion was opposed on the ground that, to leave the rock, was to erect a monument to Gencral Lee. The motion, however, prevailed, and it was determined to retain the rock as a feature of historic interest,-Richmond

FREAKS OF THE COWS.—The Cincinnati Herald tells the following, which is doubtless true, as such things are of common oc currence over here in the State of Bald-

"A cow in this city, in mistake the other day, took a feed of pine saw dust instead of bran. In the evening she gave turpentine instead of milk."

A cow belonging to one of the vacant lots on the Spring Hill road accidentally got hold of an ear of rotion corn the other day, since which time she has been giving a decided sight botter whisky than we have ever had from Cincinnati.-Mobile Advertiser.

CLASSICAL AND MATHEMATICAL SCHOOL. STEWART COLLEGE,

CLARKSVILLE, TENN. THIS INSTITUTION WHAL RE-OPEN September 10, 1866. Boys are prepared for the higher classes in College, or business. Students from a distance can procare boarding at reasonable raise in respectable families. Especial care and oversight exercised over all sent from home to be educated here.

Send for our circulars. The attention of parents who have cons to send from home is respectfully miled to this school. The advantages of the school and places are superior.

Torms as usual in good schools.

SONS OF TEMPERANCE, MESTS EVERY PRIDAY, AT & P. M., AT Some Hall, Masonic Temple. The Great Southern Plano L. R. EASTMAN, R. S. Manufactory.

WM. KNABE & CO., MAUTPACTURERS OF

TONE combines great power, richness, sweetness, and fine singing quality, as well as great purity of in-tonation and harmoniousness throughout the en-tire scale. Their Tourest TOUCH is pliant and elastic, and is entirely free from the stiffness found in so many pianos, which causes the performer to so easily tire. In

WORKMANSHIP they cannot be excelled. Their action is constructed with a care and attention to every part therein that characterises the finest mechanism. None but the best seasoned material is used in their manufacture, and they will accept the hard mages of the concert room with that of the purfor on an equality-numforted in their melody; in fact, they are constructed "NOT FOR A YEAR-BUT FOR EVER." Which we offer to Planters and the trade at the ownst market rates.

110,000 Baltimore, all grades;

Immigration Company incorporated by an Act of the General

Authorized Capital, \$1,000,000. 20,000 Shares of \$50 Each-

C. C. GIRBS, AD, M. HEFLEB, WER. OFFICERS ELECTED BY TAN BOARD:

THE LEADING OBJECTS OF THE COM-PANY are to encourage immigration to our State, and to supply the demand for every descripstate, and to supply the demand for every descrip-lon of labor.

They propose to accomplish the first of those supports by purchasing lands, where suitable water ower or other advantages may be hed for cannu-sciuring purposes; and also by purchasing lands, a large tracts, near ordies, rivers and railroads. These lands will be divided into suitable lots or racts, and alternate tracts sold to the immigrant dor near cost, the purchaser paying one fourth ash and the remainder in one, two and three cars. satisfy the employer by guaranteeing the deliver-ing of the labornes to him at any shipping point or railroad station. Our system for furnishing all

ing of the laborers to him at any shipping point or railroad station. Our system for fermishing all kinds of labor to all parts of the State we expect to make perfect: For the dutall we refer to our circular on lanor.

The profits of the Company will be derived from the ultimate sale of the alternate tracts of lands retained, and from the building up of villages and towns in places adapted to that purpose, and from the miding of manufactories and the general development of the agricultural and mineral resources of the State, and also from the direct fees derived from the supplying of operatives.

The basis of our atoek being the lands of the Company, any improvement of them must enhance the value of the stock in the same ratio, and thereby be a safe and profitable investment to the mental bodder.
